

Donations

Thank You donors!

We couldn't do it without you!

Greyfoot works on a shoestring budget.

Every dollar donated is spent towards the care of our rescued cats and kittens.

Our adoption program depends on individuals and businesses for donations. We are always in need of laundry detergent, paper towels, canned cat food, dry cat food and litter. (all brands)

Feral Cats

Feral Cats exist in every community. These cats are the same species as domestic cats, but are not socialized to humans and can't be adopted

into homes. Instead, they live healthy and content lives in family groups called colonies. The best and most humane way to help a feral cat is through a program called Trap-Neuter-Return, which ends the breeding cycle and helps cats and people coexist peacefully.

Animal Control's traditional method, catch and kill, is cruel, endless and costly. Over 70% of cats who enter animal shelters are killed. And nearly all feral cats brought to shelters are killed, because while feral cats are the same species as companion cats and are healthy they are not socialized to humans and cannot be adopted into homes. Our tax dollars and donations would be better spent on Trap-Neuter-Return for outdoors cats and low-cost spay and neuter for all cats.

Help Us Alter Their Future

Who We Are:

Greyfoot Cat Rescue & Sanctuary is a California non-profit group founded in 1999, by a group of animal loving friends. We adopt out unwanted, abandoned and homeless cats and kittens into permanent loving homes. Almost entirely run by volunteers, we have successfully placed over 5000 cats and kittens. And altered 2600 community feral cats (TNR). We rely on the generosity of the public, private sectors and fundraising events to fund our no-kill programs. Please join us in our mission to end the needless suffering and deaths of companion and community cats and kittens in our county each year.

Volunteer

Volunteers are a dedicated "army of compassion" and the backbone of any successful No-Kill organization. Our volunteers have a passion for saving lives.

Volunteers help with cleaning, feeding, socializing, fostering, medicating, hosting adoption events, humanely trapping ferals, and transporting cats to neuter clinics.

Foster

"He who helps others helps himself." Chinese proverb

Foster home care is crucial for our rescued cats and kittens. It is essential for rehabilitating sick and injured or behaviorally challenged cats and kittens.

A spare room works well. We provide the food, litter and Vet care. The rescue is housed at our sanctuary, when healthy will be transferred into the foster home. The foster families become very attached to the cats and kittens in their home. They are giving them a chance at having a life and also getting into a loving home. With the TLC and time we give to our rescues, we take an enormous effort to find them a life-long loving home.

Adopt

All Greyfoot cats are neutered, micro-chipped, vaccinated, felv & fiv tested, and wormed. Anything needed to restore their health is completed before adoption.

No Kill!

People who are giving up a family pet, found a litter of kittens or stray cat, call Greyfoot Cat Rescue in the hopes of finding a no-kill organization that will work to find them a good home. The majority of these cats are shelter bound and if taken to Ventura County Animal Services, most are only kept alive the state requirement of five days. We rescue from this shelter, I am happy for the ones we walk out with, but so sad for the ones I left behind. Our intake is limited by our donations and space at our sanctuary. We take in a manageable number of rescues, so that we are able to provide quality care.
